Hallowed Ground

Ikon

We come together
Though as one
I'm waiting for you
To be the oneWe come together
In this place
Something surrounds me
So powerfulAnd when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
The door is openAnd when we dance
There lies untold
Belief and rituals we behold
You can't escape the hallowed ground
The hallowed groundWe come together
You and I
We come together
You and IAnd when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
The door is open
And when we dance
There lies untold
Belief and rituals we behold
You can't escape the hallowed ground
The hallowed groundAnd when we dance
There lies untold
Belief and rituals we behold
Into the night there comes the cold
You can't escape the hallowed groundFrom: In The Shadow Of The AngelWords by Chris McCarter & Michael Carrodus
