My Only Fascination

Demis Roussos

You'r my only fascination, my sweet inspiration
Everything I want could be
You'r the sun that rises for me
My summer breeze from the sea
Some lucky day you came my way and shut My joy and sorrow
We were so true, your colored blue the clear sky of tomorrow
I touched ur hands and once again you tell me "say You need me"
Your mother spring the love you bring is love for love you Everyday(chorus)You'r my only fascination, my sweet inspiration
Everything I hope to be
You'r the sun that rises for me
My summer breeze from the sea
Your my only fascination, my sweet inspiration
Your my tender harmony
If is rain it's musical hear, only because u are near
For what u say in your way
Can fill my heart with sunshine
Some how i know this love will grow and
And that you'llalways be mine
From morning dew can touch to you and
Awake each morning
From friendly wind will stop and sing
The moment u save on(chorus)You'r my only fascination, my sweet inspiration
Everything I hope to be
You'r the sun that rises for me
My summer breeze from the sea
Your my only fascination, my sweet inspiration
Your my tender harmony
If is rain too musical hear, only because u are near
