Going to the Country

[The Bros. Landreth](#)

Well I'm going to the country
Gonna find some peace of mind
Yeah I'm going to the country
Gonna find some peace of mind
Yeah I'm going to the country
Just to see what I can findWell I used to have a woman
Now I'm a solitary man
Yeah I used to have a woman
Now I'm a solitary man
Yeah I used to have a woman
But I made myself another plan, so long baby
Some people think I'm running
Others say I'm going blind
Some people think I'm running
Others say I'm going blind
Well I might have been foolish
But I've never been unkind
Well I've seen the highest mountains
And the valleys down below
Yeah I've seen the highest mountains
And the valleys down below
Yeah I'm going to the country
It's the only place that feels like home
Yeah it feels like homeBig sky country
Big sky country
