

# Fvck the Vniverse

## Rave The Requiem

I wanna take you down  
I wanna slit your throat  
Fuck you  
And raise hell to burn what's left behind

I wanna cut your veins open wide  
I wanna plant eggs of parasites  
And let them eat you from inside

Come on, bitch!  
Let me hear you scream  
Let me puncture your lungs  
To breathe air into my darkest dream

I have to tear you apart  
Rip out your fucking heart  
And sell my soul to the devil

Don't fuck your enemy  
Don't fuck the world  
Don't fuck humanity  
Fuck the universe

ANOTHER SIGN OF ARMAGEDDON  
AS WE ARE DYING HERE  
BLEEDING HERE  
WAITING FOR THE END TO COME

BEYOND THE SKY  
BEYOND THE HORIZON  
IN THE RUINS OF YOU AND I  
SET ME ON FIRE LIKE THE SUN

I wanna get high  
I wanna drink your blood  
Rip out your white wings

So I can touch the sky

I wanna burn a mark on your skin

A declaration

To delete the sin from sinners within
