

# Take the Last Chance (T.t.l.c.)

## Peyman Salimi

Your dream is dark  
Your play is mean  
You got no chance to move ahead  
You're left alone  
In this awful scene  
Your act will lead to flowing red

The list is empty , no one to call  
Take the last chance and save us all  
I think your time's up

And you bluff again  
But they're pretty sure  
that your fire won't last too long  
Some day soon  
They'll come away  
And no one cares if it's right or wrong

That little strait's all you've got  
Would you tell me please what you got in your blood  
I think your time's up

Now I talk to you that open fire  
On those poor guys in their ancient lands  
You say you kill for peace that we all desire  
And you get stock in the mud and sand

He's dancing samba and his soldiers die,says:  
gentlemen! they're terrorists it's not a lie  
and their time's up•

but it's all your fault if it's a dirty zone  
Stupid circle you drew for us  
You'd wanna fly around you'd wanna move forward  
But there's a line that you'll never cross

And you both cheat and you both lie  
And the pain remains in our tired eyes  
I think your time's up
