

# Dark Brown Teeth

## King Buzzo

There's a magic drunken lord  
Filled with paper dolly women  
Watch it burn downThe wine will let them speak their tongue  
And they'll tell you why you're wrong  
and honey when its goneWhen they're getting what they're given  
Then there won't be drunken ladies  
Watch it fall downThe wine will let them speak their tongue  
And they'll tell you why you're wrong  
And honey when its gone
