

Annihilation of Hammerfest

Amon Amarth

All is lost and foreign kings
Rule the northern realms
Hammerfest, the last outpost
Has fallen to unbearded men Lords of the bloody cross
Deceived or murdered all of true faith
Now the temple of Thor
Where Mjlnr is kept, is under siege They fear the power of Mjlnr
The hammer of Thor and all their efforts
To destroy it have failed From deep within the frozen ground
Comes a rumbling sound
Ravens scream and wild wolves howl
Sending shivers down christened spines As if from nowhere
Dark and grim he appears
The warlord of the gods comes with force
To retrieve the crusher The first man died with a gurgling sigh
When his head was crushed
Painful surprise within his eyes
As his life was snuffed With raw and brutal force
The warlord brakes the temple doors
The weak back off in fear
On the altar it lies, he lifts the hammer high
And before it he swears Allvise Ygg, Mktige Hrjafader
Gudar av Asars och Vaners tt
Hr mina ord, nr som jag svr
Att om tusen vintrar ter ta vr rtt While he speaks his prayer
Mjlnr rests in the air as if holding its breath
Frozen by fear, the gathered stand and stare
And what they see is death A laughing cry fills the shivering night
He lets the hammer strike
A bolt of lightning bright rips the darkened sky
Fire of doom ignite
