Not Like You

Hannah Fury

Giant-Size Man-Thing number four
You are Eleanor
Don't say a thing
For me or for him
Just pretend
You are our friend
Until the endDon't speak, don't speak
Don't speak, don't support
Just quietly abhor me
The thing that feels
And is not like youDon't speak, don't speak
Don't support
Just quietly abhor me
The thing that feels
And is not like you
I am not likeSo what if you don't like me
And you don't care how I feel
So what if you can't see me
I know I am really hereSo what if you don't believe in me
Do you really think I care
So what if you don't believe in me
I know I am really real
I know I am the real thingDon't speak, don't speak
Don't support
Just quietly ignore me
The thing that feels
And is not like you
I am not like you
I am not like youI am not like you
I am not like you
