The Sun Also Rises

Fever Tree

Take a look into tomorrow
When everything is gray
Borrow from tomorrow
And you will find your wayCHORUS:
When you're standing in the middle of the road
Going nowhere (going nowhere)
And it's raining (and it's raining)
Going nowhere (going nowhere)
And it's raining (and it's raining)
Going nowhereThe sun also rises
The dark will go away
The sun also rises
As night walks into dayCHORUSThe sun also rises
The dark will go away
The sun also rises
As night walks into dayYou know the sun also rises
The dark will go away
The sun also rises
As night walks into day
