

# Blinded (Sebastian Brandt Remix) [feat. Laurie]

## Masoud

A city ripe with fallen angels  
Wounded souls on vacant streets  
The faces could be anyone of us  
Faces we're too scared to meet  
And they're reaching for a hand  
We turn the other way  
Pretend that we don't see  
Don't know what to say  
The struggle still remains  
To find the strength inside  
To do what's right  
We've been blinded, oh  
Let's rewind and go to a time before  
We were blinded, oh  
Let's rewind and go to another time  
In every face is my reflection  
We are all one in the same  
Different phases and directions  
Intersecting the same plane  
And they're reaching for a hand  
We turn the other way  
Pretend that we don't see  
Don't know what to say  
The struggle still remains  
To find the strength inside  
To do what's right  
We've been blinded, oh  
Let's rewind and go to a time before  
We were blinded, oh  
Let's rewind and go to another time  
We've been blinded, oh  
Let's rewind and go to a time before  
We were blinded, oh  
Let's rewind and go to another time
