

# Comforter (Re-Recorded) [Remastered]

Shai

alk to me baby I'm listeningHook  
Lay down and tell me what's on your mind  
What exactly did he do to make you cry this time  
Well I will be your comforter I will make it right  
He cast a shadow on your heart and I will bring back your lightCome in I see he's hurt you again  
When you are in pain I'm in pain  
That's part of bring a friend  
But this is a special case  
I held my feelings back because of him  
And now I can see it more than ever  
I made a big mistakeHookI don't mean to disregard your feelings  
But I think he's a fool  
He don't know how sensitive you are  
And baby that just ain't cool  
I'm just glad I can be there for you  
When you need a helping hand  
Deep inside my heart from the start  
I know I should've been your manHook
