

Taking Over

The Sylvers

1..., 2...

1, 2, 3, 4(Taking over)

(Your love has taking over)

(Taking over)

(Your love has taking over me)From sun up to sun down

I searched, but never found

The kind of man who makes a partnership of love

Stand sure on solid groundYou came into my life

And brought our love that made everything alright

My lonely days are through

With a man like you(Taking over) take me over

(Your love has taking over)

Baby, your love

Ooh, I can't get enough of

(Taking over)

(Your love has taking over me)

Take care of business to my loveGot you under my skin

But it's good, so good on my circulation

Ooh

You grew so fast on me

Build enough our strong love foundationDon't want a man I can rule, no

And I've been hurting, no not to be no fool

With you I'm in good hands

You know I am

Baby, you're the man(Taking over) take me over

(Your love has taking over)

Hey baby, where you've been

All my life I thought love wouldn't come again

(Taking over)

(Your love has taking over me)

Take care of business to my loveI don't want no lover on the side

You've got just what I need

'Cause I'm a real woman with an appetite

That only your love can please

The way you do the things you do

Nobody came even close

And others have tried to

But it's you I dig the mostSo take me over

You really got a hold on me

Take me baby, take me, take me over
You really got a hold on me I don't want no lover on the side
You've got just what I need
'Cause I'm a real woman with an appetite
That only your love can please
The way you do the things you do
Nobody came even close
And others have tried to
But it's you I dig the most 'Cause I don't want a man I can rule, no
And I've been hurting, no not to be no fool
With you I'm in good hands
You know I am
Baby, you're the man (Taking over) take me over
(Your love has taking over) over
Ooh, I can't get enough
(Taking over)
(Your love has taking over me)
The way you do the things you do
Nobody could ever come close to you
Now take me over
(Taking over)
(Your love has taking over)
You got control
Believe me, baby, you'll always take me over
(Taking over)
