Paradise

Khalid

You go searching for paradise
You sit back and close your eyes
We're burning, yet so aliveAnd now you've got your hands up
Hoping you catch the high
Feels like the summer time
Chasing the northern lights, oh
Don'd like watching your momma cry
You say you'd rather die
She says you're wasting your lifeOh, life don't stop the more we pray
All your wrongs from yesterday
Smokin' himalayan haze
Won't wash all your sins away
Hate don't give
Love don't rewind all the good times
All the dollars you'll spend
Give it up for nights like this
Don't give into overthinking
Pour a drink when it endsDo you hear me through your speakers
So much distance, space between us
Say you're dreaming and I've been, too
And no-one knows what you've been through
And I've been thinking a little deeper
Contemplation, getting cleaner
See no leaders, need more teachers
I'm in shambles, I don't sleep muchOh, life don't stop the more we pray
All your wrongs from yesterday
Smoking himalayan haze
Won't wash all your sins away
Hate don't give
Love don't rewind all the good times
All the dollars you'll spend
Give it up for nights like this
Don't give into overthinking
Pour a drink when it ends
(Overthink)
