

# Fool in the Full Moon

## Violent Femmes

I've been following women, all afternoon  
Don't turn around too soon  
I've been following you all afternoon  
Following you a fool in the full moon  
Something's got a hold on me, when I get a hold of you  
Following women after dark  
Nobody knows what's in my heart  
Let your loving be I'm a lechery I do not spread leprosy  
I will not touch but let me see  
My building's burning down and I cannot breathe  
Following you who won't believe  
Perfect peace I cannot perceive  
When I'm following you, I'm a fool in the full moon
