Feels Right

Plain Cities

Thoughts shifting my concentration
Raw emotion, I never saw this coming
Why canâ€™t I avoid this conversation
Under pressure, I canâ€™t decide
Whether I face this now or
Give it more time
Until it feels right

Wait till it feels right
Until it feels right
Wait till it feels right

Save it for the future
Oh I know I'm in the here and now
Save it for the future
Iâ€™m in the here and, here and, here and

I wish, I wish Iâ€™d known
Lifeâ€™s not like this at all
Nothing just becomes clear
In a few more years

Wait till it feels right
Until it feels right
Wait till it feels right
I'm gonna
Wait till it feels right
Until it feels right
Wait till it feels right

Save it for the future
Oh I know I'm in the here and now
Save it for the future
Iâ€™m in the here and, here and, here and

Save it for the future
Oh I know I'm in the here and now
Save it for the future
Iâ€™m in the here and, here and, here and

Save it for the future
Oh I know I'm in the here and now
Save it for the future
Iâ€™m in the here and, here and, here and
