Brick & Lace

Can I be your girlfriend
I wanna wanna wanna be your girlfriend
I gotta gotta gotta get you to the end
No lie
Gotta get you in
You into my life[Chorus:]
Why can't we
Fall in love
Baby you're the one that I'm thinking of Why can't we be more than friends
I see u from a Friday night u sistren Why can't we
Fall in love
Let me be the one that you've been dreaming of Why can't I
Just have you
Going crazy over you[Verse 1:]
Boy you've got me bugging, got me flipping out my way
You know you got me hooked from the first day
I wanna be your lova
Gotta be your lady
Cause a guy like you needs me Can I be your honey
Can I be your sugarplum
Yearning for your touch for o so long
This burning desire, it just will not leave
When will my heart ever sleep[Bridge:]
Baby you
Got me hooked with all the things
You do
Looking out at night, cause I'm so into you
Baby wanna wait
Wanna be with you
Boy it's true
Falling deeper when I'm next to you
U had me crazy since 2002
Baby wanna wait
Wanna be with you[Chorus][Verse 2:]
So now that you know baby
What you gonna do
I've showed you my heart
And it's all up to you
So tell me that u feel it, I hoping you do

Stuck pon you boy, like a glue
So tell me when you step
Should you give me a rush
Ain't no denying
I want you so much
This burning desire
It's just will not leave
Oh give you loving to me [Bridge] Can I be your girlfriend

I gotta gotta gotta get you to the end
