

# You're the Only Star in My Blue Heaven

[George Morgan](#)

You're the only star in my blue heaven  
And you're shining just for me  
You're the only star in my blue heaven  
And in dreams your face I see You're the guiding light that brightens up the night  
When you came in sight my heart was lonely  
You're the only star in my blue heaven  
And you're shining just for me You're the guiding light
