

Love Is On The Way

Ekolu

So you're feeling alone and still yet you got no one to love you girl,

I got u baby cause lately I've been so alone girl

Love is on the way

Too much of sadness no happiness girl it aint good for you

You want some loving I'm bugging you to come on over,

Love is on the way

Chorus:

Love is on the way, Heading straight to you

With a kiss and a hug and so much loving you would even know it's true

And all of your yesterdays, would seem so far away

Love is on the way

Girl I'm taking the time to tell you that no one else could love you more

This is it girl, I'm here to stay and that's for sure

Love is on the way

You never thought you would ever find someone that you could adore

I admit girl I love you babe and that's for sure

Love is on the way

With a kiss and a hug and so much loving you would even know it's true

And all of your yesterdays would seem so far away

Girl you know that my love is always here for you, baby know this love is true

And all of your yesterdays would seem so far away

Love is on the way
