

This Is a War

Losers

I think you know what the game is
"I hope you've brought all your players
'Cause this is a war
This is a war Pick up the gun with his name on
You'll never know where it came from
This is a war
This is a war You think you're God in a place where
There is no God to replace us"
This is a war
This is a war Say goodnight to your body
The day has won
The day has won Wake from the chaos
Open your arms "
I'm your neighbour
This is a war
This is a war Say goodnight to your body
The day has won
The day has won
