All I Could Bleed

Testament

I like to dominate and I create your fate
So many years gone by
I rule society if you cannot be me I am the masterCan't you hear me, breathing for you, do not ignore
Reach out to me, put your knife through me
Watch me bleed for you, yeah rightTry to retaliate and I release your hate
Why don't you bleed for me
What do you need to prove I can see through you
You're not the masterCan't you see me, dying for you, do not ignore
Do reach out to me, put your knife through me
Watch me bleed for you, dying, dying all I could bleedDon't you understand, grab life by the hand
Where's democracy I gave all I could bleedFuck government policy this land is of the free don't take away
Your two bit society dying for your greed
Now watch them bleed, yeah, all I could bleed
All I could bleed, all I could bleed, all I could bleed
