

Freedom

Erasure

Freedom will come
To real love
Heaven will come
For real loveDo-wah, do-wah, do-wah
Run away when it hurts from the things that we do
Do-wah, do-wah, do-wah
Don't know why we cry, run away from the truthChildren of new men
Colors of human kind in shadow
Good is your loving
Growing and sharing stormsBelieve
You've got to believeCalling the day freedom will come
And we will arise to real love
Day by day, heaven will come
And we'll survive for real loveCherish the union
The light in a stranger's eyes
Your guardian angel will make
All the wrong things rightBelieve
You've got to believeDo-wah, do-wah, do-wah
Do-wah, do-wah, do-wah
Do-wah, do-wah, do-wah
Do-wah, do-wah, do-wahCalling the day freedom will come
And we will arise to real love
Day by day, heaven will come
And we'll survive for real loveCalling the day freedom will come
And touch the sky in heaven above
Day by day, heaven will come
And we'll survive for real loveCalling the day freedom will come
And touch the sky in heaven above
Day by day, heaven will come
And we'll survive for real loveCalling the day freedom will come
And touch the sky in heaven above
Day by day, heaven will come
And we'll survive for real love
