

You shine brighter than the city, love
You shine brighter than the city, love
It feels like i'm losing you
Like i've been torn in two
After all that we've been through
Is there nothing that i could do, oh?
You can have los angeles
Just give me back my girl
You can keep your angels
Just give me back my girl
You can have los angeles
Just give me back my girl
You can have the basin
Just give me back my girl
