Battalions Of Hate

Primal Fear

Can't believe the things I see
That happens in the state
By a mortal distance, I can't believe
Self-destructive infernal
To save us from the breed
But I know that it is all a lieStar Wars begin now
His bombs come exploding
Bring back the death of the night
No mercy, he's knowing
How strong he must show us
For the last film you all get a partBe by my side or you've to die
Believe what I do is the rightSoon armageddon
Last hours are running now
The final solution begins
The words of a madman
No children to tell them
For what they'll not see in the lightChoose by your voice
Kills and destroys
At the end you must die for the nightIn earlier chess games
We're playing the part of a soldier
But now we are not qualified
To save our own lifeThe traps are all placed by command
They are ready to strike
We live and we'll die
By the lies to believeTry to escape from this suicide dreams
Or past time will come back again
Hiroshima is a joke to that what will come
At the end of the game we all die, die nowBattalions of fear
They search and they scream the American dreams
Battalions of fear
The way of R.R. to show he is the star
BattalionsStar Wars begin now
His bombs come exploding
To bring back the death of the night
No mercy he's knowing
How strong he must show us
For the last film you all get a partBe by my side or you have to die
Believe what I do is the rightWith hands full of blood
He talks about peace

With snake poisoning tongue he's praying
El Salvador and Vietnam
You soon fast forget
But you satisfy on AfghanistanYou've been the master, kill with a laughter
Your screams of peace are wrong and loud
'Cause so we are and here we areWe scream and shout
Your laughing about all the fools
Scream and shout
With power of evil they standTry to escape from this suicide dreams
Or past time will come back again
Hiroshima is a joke to that what will come
At the end of the game we all die, die nowBattalions of fear
They search and they scream the American dreams
Battalions of fear
The way of R.R. to show he is the star
Battalions of fear
The way of R.R. to show he is the star
Battalions, battalions
