

From the Dust

Rogue

I miss those nights when we were younger
And we would never sleep
So let's forget about tomorrow
And live for tonight while we're free
And our hands will touch the sky
Tonight we're coming alive
Whoa, whoa
Whoa, whoa
And our hands will touch the sky
Tonight we're coming alive
And our hands will touch the sky
Tonight we're coming alive
From the dust we will awaken
And life will fill our veins
These are the moments that we live for
And keep it inside of me
And our hands will touch the sky
Tonight we're coming alive
Whoa, whoa
Whoa, whoa
And our hands will touch the sky
Tonight we're coming alive
