

# Angel On My Shoulder

[Mattafix](#)

I wanna feel you now,  
Like a thousand lies  
Bleeding out of your heart,  
Burning in the night  
Don't wanna see you crying,  
Fallen out of light  
I wanna feel you now,  
Like an August rain  
Kissing summer goodbyes,  
I wanna see your pain  
Don't wanna see you crying,  
Fallen out of light  
I don't wanna see you crying little angel on my shoulder,  
I wanna see you flying, back to heaven where you belong  
I wanna feel you now,  
Like a thousand knives  
Digging out of my heart,  
  
Burning in the night  
Don't wanna see you crying,  
Fallen out of light  
Don't wanna see you crying little angel on my shoulder  
I wanna see you flying, back to heaven where you belong  
Don't wanna see you crying little angel on my shoulder  
I said alright, gonna get you crying  
Come hell or high water  
Since you've been gone  
Don't wanna see you crying little angel on my shoulder  
I wanna see you flying, back to heaven where you belong  
Don't wanna see you crying little angel on my shoulder  
I said alright, gonna get you crying  
Come hell or high water  
Since you've been gone  
Since you've been gone  
Since you've been gone
