

Apples & Oranges

Edgewater

You are buried in complications
Falling faster, falling deep
Drowning in their expectations
Take a step back and you'll see Step away, and separate
Separate the apples from oranges
Step away, and separate
Separate the clean from distorted Disconnect the wires that feed you
Unannounced, just come clean
Strip away from what they made you
You will find what's underneath Step away, and separate
Separate the apples from oranges
Step away, and separate
Separate the clean from distorted
Disconnect the wires that lead you
Open your eyes before your time flies away Open your eyes before your time flies away
Please don't judge me, there's no reason
Don't misjudge yourself, there's no reason
Disconnect yourself from the reason Step away, and separate
Step away, and separate
Separate the clean from distorted
Disconnect the wires that lead you
Open your eyes 'cause it's your time Separate
Separate
Separate
Separate
Separate
