

# You're Still Around

## Moor Hound

If I didn't need something only you could offer  
You'd be gone from my tongue and mind  
I wouldn't even bother with the hope delusion  
The game has changed for me baby  
I don't want to see you  
'Til I've made it into your heart  
'Til I've made it through this hope disease  
'Cause if I wanted to feel like hell  
I'd put my heart back up from where it fell  
And remind myself you're still around
