

Here with You

Seventh Day Slumber

Well, I've been beat and I've been laughed at
And I've been drug through streets of pain
And I've had people turn their back on me
I have been called every name And I've felt loneliness and hunger
And I felt helpless and betrayed
And all the hurtful things you've done to me
You know my love has never changed You drove the nails through my hands
I never gave up on you
You placed the thorns on my head, yeah
But I'm right here with you, I'm here with you Well, I took the sting of torture
So you wouldn't feel the pain
Well, I was nailed upon a cross for you
And child I'd do it all again You drove the nails through my hands
I never gave up on you
You placed the thorns on my head, yeah
But I'm right here with you, I'm here with you You drove the nails through my hands
I never gave up on you
You placed the thorns on my head, yeah
But I'm right here with you, I'm here with you
