Singing Forever

Westlife

Mark:
You took my hand, long ago
And you've been by my side always
I didn't know where to go
You showed me the way
Who knows what the future holds
Oooo we'll never know
Chorus:
Nobody thought that we'd still be together
They all said we'd fall to the floor
No matter the fight, we'll survive any weather
We'll prove them wrong
Keep singing forever
Shane:
As I lay here beside you
And I look in your eyes

I know without you in my life
It just wouldn't survive
Mark:
Â who knows what the future holds?
Â we'll never know
Nobody thought that we'd still be together
They all said we'd fall to the floor
No matter the fight, we'll survive any weather
we'll prove them wrong
Keep singing forever
Mark:
We'll never know...
Repeat Chorus to fade
