Never Do That Again

Ivy

The cat's on the carpet
The phone doesn't work
I hate when it's quiet
It means that you're hurtIt gets so complicated till I can't pretend
I thought I could do something good
But I'll never do that again
I thought I could do something good
But I'll never do that againAnd you put your book down
And stare into space
You turn all the lights down
So I won't see your faceIt gets so complicated till I can't pretend
I thought I could do something good
But I'll never do that again
I thought I could do something good
But I'll never do that again
