

# So Dang Dark

## Rhett and Link

I'm not afraid of the dark  
I'm afraid of what's in the dark  
That I cannot see  
because it's so dang dark  
so dang dark  
so dang dark  
so dang dark  
so dang dark

There might be a ghost in the dark  
That's pretty unlikely  
but there definitely could be a slippery spot  
and that's arguably even more frightening  
There might be a sudden level change  
Like an unexpected step down  
Your foot is still up in the air  
when your brain thought it'd be on the ground by now  
There might be some fungus  
because they like it where it's dark and moist  
wait, are we talking about mushrooms  
athlete's foot but you make a good point  
cuz some mushrooms are deadly  
and in the dark I might be fooled  
but it's not like you have to eat it  
but you know how much I love mushrooms

I'm not afraid of the dark  
I'm afraid of what's in the dark  
that I can not see  
because it's so dang dark  
so dang dark  
so dang dark  
so dang dark  
so dang dark

There could be two fractions in the dark  
and they need to be added together  
but I don't remember how to add fractions  
and I don't have a calculator  
There might be a jury summons  
and it says you gotta go in on your birthday  
but I have to look at murder photos

while I'm trying to enjoy my ice cream cake  
There could be a brand new home  
congratulations  
but they started fracking at the edge of my neighborhood  
and now my home is depreciated  
What if there's a blank canvas  
Where do I even start?  
and is it even worth the risk  
Who am I?  
Should I go back to law school  
I'm not afraid of the dark  
I'm afraid of what's in the dark  
that I can not see  
because it's so dang dark  
so dang dark  
so dang dark  
so dang dark  
so dang dark
