Leave It All Behind

Perry Blake

Secrets in the shadows, it's breaking day now
A night eclipsed by sadness makes it's way nowShine, shine, leave it all behind
Let it go
Shine, shine, leave it all behind
Let it goRising in the twilight, a missing face
Martha in her sorrow took it's place
See them run, they'll never find
See them fly, never knowing whyShine, shine, leave it all behind
Let it go
Shine, shine, leave it all behind
Let it go
