

# Leave It All Behind

[Perry Blake](#)

Secrets in the shadows, it's breaking day now  
A night eclipsed by sadness makes it's way now Shine, shine, leave it all behind  
Let it go  
Shine, shine, leave it all behind  
Let it go Rising in the twilight, a missing face  
Martha in her sorrow took it's place  
See them run, they'll never find  
See them fly, never knowing why Shine, shine, leave it all behind  
Let it go  
Shine, shine, leave it all behind  
Let it go
