

# Calm Before the Storm

[Soraya](#)

When I am with you  
Don't want the world to move  
Want to freeze it  
Maybe wrap it up and keep it  
Steady now, so I won't lose you  
When I am with you  
It's like colors keep shining through  
From lighter to darker  
Then richer to weaker  
They're blended till I'm all lost in you  
With a sudden turn my insecurity burns  
I'm thrown into this whirlwind of doubt  
And all the love that I now feel slips away from me  
Until I am isolated without you  
If this is the calm before the storm  
I fear, the end is near  
So I look behind the words you say  
And try to find your way out of here  
What will be your way out of here?  
What will be your way out of here?  
When I am with you  
Sometimes I don't know what to do  
Would you believe me, if I were to tell you  
That this craziness is all over you?  
With a sudden turn my insecurity burns  
I'm thrown into this whirlwind of doubt  
All the love that I now feel slips away from me  
Until I am isolated without you  
If this is the calm before the storm  
I fear, the end is near  
So I look behind the words you say  
And try to find, your way out of here  
If this is the calm before the storm  
I fear, the end is near  
So I look behind the words you say  
And try to find, your way out of here  
What will be your way out of here?  
What will be your way out of here?  
What will be your way out of here?
