

# Near Dark

## Purple Motion

Going out, I'm just I envied you  
I envied you  
Going out, I'm just  
I'm just not in it, at all  
People are still there I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you I envied you  
I envied you I envied you  
I envied you  
I can't take my eyes off you I envied you  
I envied you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you  
I can't take my eyes off you I envied you, girl  
I envied you, girl I envied you, girl  
I envied you, girl  
I can't take my eyes off you I envied you, girl  
I envied you, girl I envied you, girl  
I envied you, girl I can't take my eyes off
