

# I'm Still Dancin' With You

Wade Hayes

I'm sittin' here surrounded by people I know  
The beer's cold and the music's good and loud  
That used to be enough to put a smile on my face  
But tonight I just feel lost in this crowd  
There's a brunette on the dance floor that smiled a time or two  
So I got up and asked her for a dance  
But when she put her arms around me and I held her I knew  
It was just too soon to take another chance  
'Cause I'm still dancin' with you  
I know we said we were through  
But I keep holdin' on  
Letting go is just too hard to do  
Even when I'm holding someone new  
I'm still dancin' with you  
When the song was over, I held on a little longer  
Deep inside I knew that it was wrong  
I could hold her in my arms for the rest of the night  
But I'd just be leading her on  
'Cause I'm still dancin' with you  
I know we said we were through  
But I keep holdin' on  
Letting go is just too hard to do  
Even when I'm holding someone new  
I'm still dancin' with you  
Even when I'm holding someone new  
I'm still dancin' with you
