

# My Love

**Marty Robbins**

My love is the valley  
The breeze as it sighs  
My love is the mountains  
That reach to the sky  
My love is the valley  
The rocks and the rills  
My love is the prairie  
The low rollin' hills, the rollin' hills  
The call of the night bird  
I love every trill  
There's peace and contentment  
When everything's still  
The wail of the coyote  
The flight of the dove  
It's all God's creation  
And that's what I love  
And that's what I love
