# Good to Go

## Eye Alaska

I drove a long way to see ya
You never opened the door
You said I'm working without you
You left me out in the cold
Now I'm living life in the spotlight
These shoes were made for the floor

When you live in the moment
Your life is unfolding
And you don't know what else to do

I'm good to go
I'm ready now I'm golden
I'm good to go
Get caught up in the moment much?
But I don't know much
And if this was the gold rush
I would be caught up in the moment

ALRIGHT

I tried my best to forget you
Now your coming running begging to me
You call me baby?
I want nothing to do with you
Cause I'm living life in the spotlight
These shoes were made for the floor

I drove a long way to see ya
You left me out in the cold
I'm not worried about it
YEA

You played me out
