

Angel, Angelina

George Strait

Angel, my angel, Angelina
Heaven must be wonderin' where you are
Mornin' finds me prayin', "Please let me keep her"
Each night finds me wishin' on the star
That always, always Angelina
You'll be staying right here in my arms Sweetest of the sweet those ruby lips
No other has that touch, those finger tips
Bluest of the blue those sparklin' eyes
Like hand in glove we fit, you know you're just my size
You and all your special ways and needs
I love you Angelina Angel, my angel, Angelina
Heaven must be wonderin' where you are
Mornin' finds me prayin', "Please let me keep her"
Each night finds me wishin' on the star
That always, always Angelina
You'll be staying right here in my arms
You'll be staying right here in my arms
