

TWO TRICK PONY

Sandwich

I want to move on
Not realizing I was moving too slow
Tried to hang on
But there was nothing left for me to hold
Its such a shame that you cant be with me tonight
Im spinnin round in cycles
Hope you change your mind
Before the show is over
I look around, its you I thought I find
Ive Been on standby
Not realizing I was moving too slow
Instant replay
But there was nothing I can do about it
Still in denial
I cant believe that you can do this to me
No lights ahead
Ive been looking forward but I could not see
I have been waiting for you all night
Under the glow of the satellite
