

Mojo Man

Jimi Hendrix

[Verse 1]

Flames

I see electric flames you all

They are burning all over

All over me

Voodoo, Voodoo

That's what they call it now

And you best better

Gone and let it be

But I've always been a gambling man

So you know I'm going to, going to, going to take a chance

This why because

Can't love electric flames

Though it can fuck with me

Because I'm, I'm a Mojo Man

And I'm from

Let me tell you, I'm from Voodoo Land[Chorus]

Mojo Man

From a far away land

Got to change anything you all, anything

With the touch of hand

You made me

Whoever you may be

Just take my voodoo ingenuity[Verse 2]

I was raised in a land way back

Near a Fiji land

With a one eyed toad, just walking, in the palm of my hand

Devils, troubles, witches prove

Every girl to me

And old black cats, were my company

So you know I wasn't alone[Chorus]
