WHAT THE HELL

B.A.P

Oh whoa
Oh whoa
Oh whoa
I guess you notice, I guess you care
about the way I...flip my hair.
You say it's Bieber, you say it's hot.
But let me tell you, no it's no it's no it's not.
Am I on TV? Girl quit playin'.
He looks just like me, what are you sayin'?
Said there's another who looks and sings like you,
and he's on every single channel of YouTube.
And I was like:
What the hell are you talking about?
I was like what the hell are you talking about?
I was like what the hell are you talking about?
This face has always been mine,mine.
What the hell are you talking about?
I'm just like what the hell are you talking about?
Ya, I say what the hell are you talking about?
This face has always been mine.
Oh, oh
I knew, this couldn't be my real life.
I must be dreaming, deceiving myself in real time.
But I gotta play it cool, until I know it's true.
So then I finally
turned on my Mac to see
this Justin Bieber.
Oh no, it can't be,
You gotta wake me and shake me from this bad dream.
I'm goin' down down down, down
and I just can't believe a mini-me has now been found.
And I'm like:

What the hell are you talking about?
I'm just like what the hell are you talking about?
Oh, I'm like what the hell are you talking about?
This face has always been mine, mine.
What the hell are you talking about?
Oh, I'm like what the hell are you talking about?

Ya, I say what the hell are you talking about?
This face has always been mine,mine.
Dani: I'm 22 years old, and yes I'm quite confused.
'Cause 'aint nobody got the same mom and daddy
except my sister Ashley, so, who are you?
You got me goin' crazy
what am i supposed to do?
They're screaming," Ooh, sing Baby!"
But aren't my songs good too?
I have my own words
I'll make you think, if you listen to me sing
and, maybe I'll rap a verse, too
'cause that's the flow I bring in.
You know this can't be easy,
seein' that face on TV.
'Cause I want you to see me!
So I'll just keep on singin':
What the hell are you talking about?
Oh, I'll say what the hell are you talking about?
Ya, I'll say what the hell are you talking about?
This face has always been mine, mine.
What the hell are you talking about?
Ya, I'll say what the hell are you talking about?
Oh, I'm like what the hell are you talking about?
This face has always been mine, mine.
So am I all gone?
Am i all gone?
Am i gone, gone, gone?
No, I'm not.
