Shatter Their Bones

Cannibal Corpse

Putrid foul zombies make their ghastly approach
A dreadful horrid feeling sets in
Scrambling for weapons, an attempt to defend
Against a gruesome horde of undeadShower them with fire, make them burn in the flames
Somehow they continue to march
Ravenous savages, they'll tear you apart
They'll eat your fuckin' guts and your brainsHow do you kill what is not alive?
Break them down to stop their descent
Smash the bastards into the ground
And when they're down, shatter their bonesShower them with fire, make them burn in the flames
Somehow they continue to march
Ravenous savages, they'll tear you apart
They'll eat your fuckin' guts and your brainsHow do you kill what is not alive?
Break them down to stop their descent
Smash the bastards into the ground
And when they're down, shatter their bonesShower them with fire, make them burn in the flames
Somehow they continue to march
Ravenous savages, they'll tear you apart
They'll eat your fuckin' guts and your brainsShatter their bones
