

Live Alive

Rend Collective

I wanna live alive
I wanna live alive
I wanna live alive
I wanna live alive
Don't wanna live a lie
Don't wanna live a lie
I wanna live alive
And you make me alive Don't want to just survive
Be safe but half alive
This little light of mine
This little spark divine
I'm gunna let it shine I am letting go of every fear
I am letting go of every lie
I am taking hold of every dream
You place inside I wanna live alive
I wanna live alive
I wanna live alive
I wanna live alive
Don't wanna live a lie
Don't wanna live a lie
I wanna live alive
And you make me alive Alive
Alive There's danger up ahead
But I'm not running scared
You are the light of mine
You are the spark divine
You're gunna help me shine There's a courage that is forged in pain
There's a purpose in the furnace flame
I will risk my heart a thousand times
To feel again
To feel again I wanna live alive
I wanna live alive
I wanna live alive
I wanna live alive
Don't wanna live a lie
Don't wanna live a lie
I wanna live alive
And you make me alive I am letting go of every fear
I am letting go of every lie

I am taking hold of every dream
You place inside There's a courage that is forged in pain
There's a purpose in the furnace flame
I will risk my heart a thousand times
To feel again I wanna live alive
I wanna live alive
I wanna live alive
I wanna live alive
Don't wanna live a lie
Don't wanna live a lie
I wanna live alive
And you make me alive Alive
Alive
And you make me alive
