

Valentine

The School

Have you ever wondered, baby, how life could be?
Spend some time in some far off places, spend some time with me
Get out of the hole you're in and come on out and see So won't you tell me that you'll think about it
I really need to hear about it
You know she doesn't understand you baby, she's never gonna let you be
So won't you tell me that you'll think about it
I really need to hear about it
You know she doesn't understand you baby
She's never gonna let you be her valentine
