Chocolate Mermaid

Veranda Panda

People used to say I'm a Chocolate Mermaid
Ocean Dream must sail my heart away
People used to say I'm a Chocolate Mermaid

People used to tell me that you'd never walk alone
These streets are full of houses
But I can't find my home
Concrete jungle
This is not where I belong
Swim away with me to the dolphin's song

I let it go and I watch it drop

(Drop)

Swim away with me
Swim away with me

Swim away with me
Swim away with me

(People used to say, say)

Swim away with me
Swim away with me

(People used to say, say)

Swim away with me
Swim away with me

I let it go and I watch it drop

(Drop)

People used to say I'm a Chocolate Mermaid
Ocean Dream must sail my heart away
People used to say I'm a Chocolate Mermaid

Sitting every second

Getting paid by the hour
Power
Need someone to free me from this tower
Concrete jungle
This is not where I belong
Swim away with me to the dolphin's song

I let it go and I watch it drop

(Drop)

People used to say
People used to say, say, say
People used to say
People used to say

People used to say
People used to say, say, say
People used to say
People used to say

Swim away with me
Swim away with me

Run away with me
Swim away with me
