

# Makin' Me Fall In Love Again

Kellie Pickler

People will tell you that this kinda love will fade  
That feelin' love like this is only a phase  
But baby after all this time ain't nothin' changed.  
All you gotta do is look at me that way,

And there you go, makin' me fall in love again.  
There you go makin' me fall in love again.  
Oh, and i've gotta tell ya,  
There's nothin' better than you and me together workin' on forever,  
Everyday with you is always somethin' new  
You've only gotta be yourself, and there you go,  
Makin' me fall in love again.

Baby sometimes you can say the craziest things,  
I love how you don't care what nobody thinks,  
You're highly original, totally intypical, never change.  
All i gotta do is look at your smiling face.

There you go, makin' me fall in love again.  
And there you go, makin' me fall in love again.  
Oh, and i've gotta tell ya,  
There's nothin' better than you and me together workin' on forever,  
Everyday with you there's always somethin' new  
You've only gotta be yourself, and there you go,  
Makin' me fall in love again.

You're my sunshine, you're my rain.  
Sure feels good, to you feel the same.  
I gotta tell ya,  
There's nothin' better than you and me together workin' on forever,  
Everyday with you is always somethin' new,  
You only gotta be youself,  
And there you go,  
Makin' me fall in love again.  
There you go,  
Makin' me fall in love again.  
There you go,  
Makin' me fall in love again.  
There you go-o,

There you go-o,  
Fallin' in love again,  
Fallin' in love again,  
Fallin' in love again.
