

Venality

Etienne sin

I'll steal it all away from you
Before you knew what went wrong All my life, I searched for this lust with undying
Faith in the corruption that beats my blackened heart
Will you be my blood? Look into my eyes and tell me that
I'm the one you want forever and ever
Will you be my blood?
Look into my eyes and tell me that
I'm the one you want forever and ever
Will you be my blood? And come to your senses baby
And let me go, just let me go
And I hope you come to your senses before we lose control
And let me go, just let me go I'll throw on that suit and tie and you'll go crazy
I'll make sure the moods right for my baby
And I don't know anything about this thing called love
But I'll make sure that I'll steal it all away from you
Before you knew what went wrong I am venality so take off your clothes
I am venality, I find lust between your legs And come to your senses baby
And let me go, just let me go
And I hope you come to your senses before we lose control
And let me go, just let me go I don't want to leave this all to faith and
I just want to steal the blood you have inside
I don't believe in the wicked, just the powerful, as I said I'll
Corrupt, disrupt, this lust, insatiable taste for a laced up
life I'm unchaseable, unbreakable, indescribable
hunger for the blood of the living!
I'll fucking steal this lust
and I'll leave you with the razors to clean this trust Are you scared of me?
My beautiful, I'd love to taste those lips again
I am terribly in lust with you
I'd love to taste those lips again And come to your senses baby
And let me go, just let me go
And I hope you come to your senses before we lose control
And let me go, just let me go
