

# Mincer Ray

## Guided By Voices

Advisory - the following lyrics contain explicit language:

mincer ray don't worry  
if the road's a little worn  
it's a cold and filthy cavern  
that we're traveling on richer day assured me  
of the weak-link mending plan  
danger's always there to follow  
just do the best you can  
and a light shines down...mincer ray don't worry  
if the road's a little worn  
it's a cold and filthy cavern  
that we're traveling on  
and a light shines down  
and a light shines down..
