

Never Let You Down (feat. Lykke Li)

Woodkid

[Verse 1: Woodkid]

Will you come along cause I'm about to leave this town

In my eyes, a waterfall, all I can hear, a siren call

Could you be waiting by the shore, oh I could drown without you

Will you be holding out the line when I fall?[Chorus: Woodkid & Lykke Li]

I'll never let you down, never let you down

Never let you down, never let you down

I'll never let you down, never let you down[Verse 2: Lykke Li]

Have you ever had to be the one who sail away

Have your heart torn apart, feel your love float astray

Do you remember all the sounds, when I found you by the lake

And how the water seemed to call your name[Chorus: Woodkid & Lykke Li][Bridge: Woodkid & Lykke Li]

Baby I will find you

Baby I can hear you call

Baby I can feel your heartBaby I will find you

Just wait a little longer

Baby I can hear you call

I won't ever let you fall[Pre-Chorus 1: Woodkid]

I'll never let you down, never let you down[Pre-Chorus 2: Lykke Li]

Never let you down, never let you down[Chorus: Woodkid & Lykke Li]
